In the bustling town of Sniffleton, life was as sweet as honey until the day a mysterious stranger named Corona came to visit. Corona was a tiny germ, but she packed a big punch. She spread from person to person, leaving a trail of sneezes and coughs in her wake.

At first, the people of Sniffleton were scared. They didn't know what to make of this invisible enemy. But then, a wise old doctor named Dr. Sniffles stepped forward. He explained that Corona was a virus, and that viruses are a part of life. He also said that there were things they could do to protect themselves and others, like washing their hands and staying home when they were sick.

The people of Sniffleton listened to Dr. Sniffles, and they followed his advice. They washed their hands, they stayed home when they were sick,

and they wore masks when they went out in public. Slowly but surely, they started to get the virus under control.

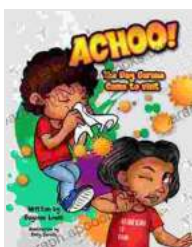

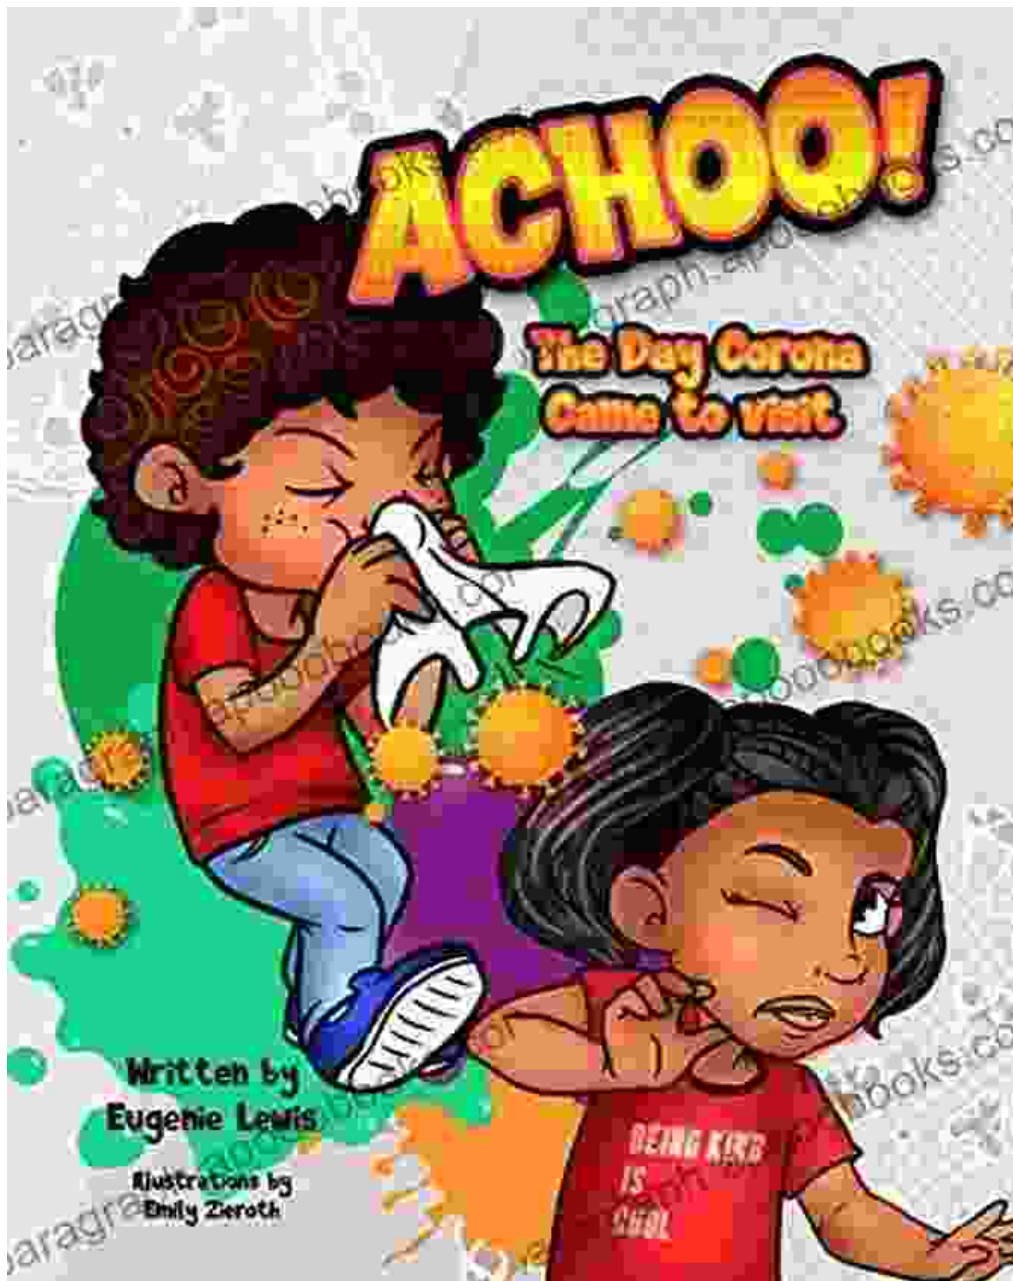

But even in the darkest of times, there is always hope. And in Sniffleton, that hope came in the form of a little girl named Achoo. Achoo was a kind and compassionate girl, and she wanted to do everything she could to help her community.

One day, Achoo had an idea. She decided to write a book about Corona. She wanted to help children understand what was happening, and she wanted to give them hope. Achoo's book was a huge success.
