The book begins by providing a historical overview of migration from the Philippines, with a particular focus on the role of return migrants in the development of Manila. The book then examines the economic impact of return migrants, including their contributions to the labor market, the housing market, and the informal economy. The book also examines the

social impact of return migrants, including their role in the formation of new communities and the revitalization of existing ones.

Key Features:

- Provides an in-depth analysis of the role of return migrants in the development of Manila
- Draws on extensive fieldwork to examine how return migrants contribute to urban development, economic growth, and social change
- Examines the economic impact of return migrants, including their contributions to the labor market, the housing market, and the informal economy
- Examines the social impact of return migrants, including their role in the formation of new communities and the revitalization of existing ones
- Provides policy recommendations for how to maximize the benefits of return migration for the development of Manila

This book is essential reading for scholars, policymakers, and practitioners interested in the role of migration in urban development.

Endorsements

"Migrant Returns Manila Development And Transnational Connectivity is a timely and important book. It provides a comprehensive analysis of the role of return migrants in the development of Manila, and it offers valuable insights into the challenges and opportunities that return migration presents for cities in the developing world."

- Dr. Kevin O'Connor, University of California, Berkeley

"This book is a major contribution to the study of migration and development. It provides a rich and nuanced account of the role of return migrants in the development of Manila, and it offers important lessons for other cities around the world."

- Dr. Susan Fainstein, Harvard University
